

# WHAT IS BASTA?

Bay Area Student Activists

# What is BASTA?

Bay Area Student Activists is a completely **student run organization** formed in 2018 in the wake of the Marjory Stoneman Douglas High School shooting. BASTA aims to bring together Bay Area students from all backgrounds and work together to **amplify our voice and demonstrate the power of youth in politics and activism.**

We have chapters in schools all across the **Bay Area** and we run events from fundraisers for those in need to letter writing campaigns to increase voter participation, every year our main event is **Lobby Day** where we speak with California congress members advocating for a bill packet. Local school chapters have freedom to pick their own **activities relevant to their own communities.** These include letter writing parties encouraging voters to vote in elections, hosting guest speakers from civic groups like the League of Women Voters, creating education material for the student body, and engaging in local campaigns and fundraisers.
